

# Wyndham 2040 Community Vision

## Final Visions to rework:

- 1) Wyndham in 2040 is a safe, connected, inclusive, respectful, self-sufficient, 20-minute city and is a diverse cosmopolitan and rural community. We acknowledge, celebrate and value our heritage, First Nations peoples and multicultural strengths. Wyndham is responsive to changing needs within a sustainable, green environment supporting holistic wellbeing.

Wyndham offers facilities and infrastructure that meet household, community and economic needs of arts, recreation, education, jobs, health and wellbeing.

- 2) Wyndham 2040, where rural meets metro; a safe, connected and inclusive community. It provides a variety of education, employment, leisure and tourism opportunities; with adequate infrastructure; supports holistic health and wellbeing for all; celebrates the First Nations peoples; its heritage and cultural diversity; sustainably enhances and preserves our natural environment.
